HEADMISTRESS'S MESSAGE

Dear Parent,

Peace be unto you!

We thank you for considering The Green School for admission of your child.

The school would be happy to work with your Child and facilitate his/her development process. We believe in imparting quality education, building life skills and developing moral values necessary for the students to take charge of their dreams. School has clearly defined its Programs, Practices and Methodologies along with the Objectives that the school wishes to achieve for each child.

In order to take up the child development, School has meticulously framed Student Development Model, which runs under two major heads- Academic and Beyond Academics. The said program caters to the Child's intellectual, personal, family, social and spiritual development. The prime focus remains on all-round development of a child by providing him/her different opportunities and platforms to participate and perform. This not only applies when the child is in the school but also while he is at home/outside the school.

The care has been taken not to rob children, childhood and give them enough trust, time and space to enjoy this wonderful period of their life. Our program in last few years has produced results that are quite satisfactory and gives a hope that great outcomes could be achieved, if the Student Development Model of the School is respected and implemented well by Teachers and supported by the Parents.

You would agree that the development of a Child entails a tripartite relationship; Home- Student- School, it is thus, essential that each stake holder understand and trust the Student Development Model, while respecting the other two stake holders. The school has also defined 'What it expects from the Parents' in order to achieve the defined Students Objectives; and believe every parent would act and support us wholeheartedly. '

We invite you to join The Green School Family. Let us work together to nurture a child of your dream.

Sincerely,
Feroza Khan
(Headmistress, Off-Site)

ABOUT US

The chain of Sir Syed National Schools was started in 2016 with its first school in Muzaffarnagar. The schools start their operation with classes Nursery, KG, I, II & III and a class is added every year to take them up to the senior secondary level.

The schools are to be recognized by CBSE and follow its curriculum. Their functioning and operations are based on ISO 9001:2015 certified standards ensuring the provision of best quality education. Our qualified, well-trained and dedicated teams of teachers from different parts of the country form the strong foundation of schools, playing role of mentors. The 95% plus average daily attendance of students at currently operating schools is evident of positive learning environment they study in.

Key Principles

Rejuvenation: The school is grounded on environmental consciousness, nurturing the attitude of being minimalists using minimal resources and healing of the earth. Hence, the mainstream curriculum is energized and enriched with this core ecological awareness.

Relationship: Respect for the global (environmentalism); local (the site and built-environment) is grounded on the crucial respect for the family unit i.e. the relationship between parents and their children based on irreducible respect and obedience towards the elder, respect and affection for the younger.

Resourcefulness: The children are regarded as pioneers in an age that is yet to come and that they be equipped by the full-spectrum development of their God-endowed skills (that schooling & society unfortunately stultify).

The school works to ensure the active development of every child's Multiple Intelligence by providing him/her right learning environment, conditions and guidance.

Our Approach: Truly Local - Amazingly Global

The *rejuvenation* of the Glocal context (global/local) in the service of the local; to the foundation of *relationships* between children and parents extrapolated to between children and teachers and finally zooming into developing the inherent *resourcefulness* of the individual to result in a child who is resourceful because he/she is secure in enriching relationship with parents/teachers to be able to eventually rejuvenate the district/ region where the school is located.

ACADEMICS & BEYOND (New Millennium' Student Development Model)

The school's Operations are based on New Millennium's Student Development Model- Academics & Beyond. This model realigns the educational model of the west to the Indian needs; while drawing the best of both... the east and the west.

Academics & beyond successfully address the challenges in today's education system like: Rote Learning, Lack of practical Knowledge, Ignored Individual Needs, Absence of Personality Development Programs, Living a Purposeless Life through its different programs. The entire Model operates as below:

The Objective:

To create lifelong love for learning; Inculcate Ethics, Morals & Values; teach brotherhood, teamwork & leadership; Produce strong compassionate, courageous citizens of world.

The Difference from Others: School is not for profit (low Fee); Students have choices (not prisoners) to elect & choose; School extends itself as an extended family of a student.

The Goals: Awaken the conscience; Create excitement for learning, Develop Social skills; Make sense in terms of learning.

A. The Academic Program (Monitored Education):

- **Focus on Learning rather than Teaching:** All Regular subjects
- **Third language:** Arabic of Quran & Urdu (Muslims), Sanskrit (Non- Muslims)

B. The Beyond Academic Programs (Simple & Effective):

- **Health Development Program:** For healthy mind and body.
- **Talent Search Program:** Talent identification and Promotion.
- **Value Development Program:** Imbibe values and high morals.
- **English Development Program:** Engagement & Activity Classes.
- **Life Skills, Creativity & Innovativeness Development:** Through Clubs
- **Green School Program:** Shifting attitude from 'Consumer' to 'Contributor'.
- **Young Achievers Program:** Intellectual, Physical, Social, Family & Spiritual.
- **Character Development Programs:** My Mother's Day, Charity Day -Everyday.

C. The Practices (to make students responsible & independent learners):

- **No Homework:** Only Practice Assignments
- **AHCU (Academic High Care Unit);** for weak students.
- **No Tuition:** Strict ban; both on Parents & External tutoring.
- **Learning Disability Assessment-**For early detection and intervention.
- **Afternoon School Day Boarding:** For Reading Room & Sports Facilities

D. The Methodology (Approach to work):

- **On Admission:** Assessment, Prelim Orientation, Child & Family Profiling.
- **Meetings:** Student-Teacher & Parent- Teacher (Scheduled & with request).
- **Exposure:** Educational Trips, Exhibitions, Events, Celebrations, etc.
- **Student Performance Records:** From Admission till passing out.
- **Annual Orientation Sessions:** Students, Teachers & Parents.

E. Commitment Towards Student Development:

- Parents facilitate & encourage Child efforts. Respect him & his Teacher while avoiding what is contradictory to learning.
- School to take over role of extended family; teachers to act as substitute mothers (giving Respect/ Home visits).

EXPECTATIONS FROM PARENTS

- Trust the School Program.
- Attend PTM; as per the allotted time slot.
- Not engage a tutor (or send him / her to the Maktab).
- Send child to school on time, neat and tidy with healthy lunch pack.=
- Inform school, if any unwanted behavior (fight, carelessness, etc.) is noticed.
- Drop & Pick up for AHCU (Academic High Care Unit) – Remedial, if needed.
- Do not criticize the child, give love; spend min 20-30 minutes quality time, daily.
- Be a Role Model -As you wish you child to be.
- Keep an eye on child's company.
- Ensure healthy diet, timely.
- Pay the school fee, timely.
